

GL - Fullstack Developer

Job Description:

We are seeking a highly skilled and motivated Full Stack React.js TypeScript Developer to spearhead a new payment integration project at Greenlight.

As a Senior developer, you will have the exciting opportunity to start a greenfield integration from scratch and play a crucial role in shaping the future of our platform.

Company Overview:

Greenlight is a leading fintech company that provides families with a debit card and money app.

Our mission is to empower parents to raise financially-smart kids by offering them tools to earn, save, spend wisely, give, and invest.

With millions of users already on our platform, we are committed to continuous innovation and expanding our services.

Responsibilities:

- Take ownership of the end-to-end development integration process.
- Collaborate with stakeholders, product managers, and designers to define requirements and create technical specifications.
- Design and architect scalable solutions using React.js, TypeScript, Nest.JS, CSS, HTML, and Android Web SDK.
- Develop clean and maintainable code following best practices while ensuring high performance.
- Integrate APIs effectively to establish seamless communication between systems.
- Work closely with cross-functional teams including QA engineers to ensure quality deliverables.
- Stay updated with industry trends and emerging technologies related to payments and integrations.

Requirements:

- Strong proficiency in working with React.js, TypeScript, Nest.JS for full stack development.
- Extensive experience in building user-friendly interfaces using CSS and HTML.
- In-depth knowledge of integrating APIs for seamless data exchange between systems.
- Proficiency in utilizing Android Web SDK is essential.
- Familiarity with Figma or similar design tools to implement designs accurately.
- Previous experience in Fintech or payments domain is highly desired.
- Proven track record of successfully leading greenfield projects with minimal supervision.
- Excellent problem-solving skills and ability to adapt to changing project requirements.
